

Spring Seminars & Workshops 2016

Open to Public

	Date	Topic	Speaker/Institution
Jan.	26 A	Workshop How to Craft a Winning Application	 Dr. Cyndi Freeman Ohio State Univ.
Feb.	2 M	Modeling Evolution <i>in vitro</i> : Mutagenesis & Genetic Drift	 Dr. Dawn Eastmond Scripps Research Inst.
	4	How to Design a Battery from the Bottom Up	 Mr. Luis De Jesus * Texas A&M Univ.
	9	Human Papillomaviruses – From Warts to Cancers	 Dr. Karl Munger Tufts Medical School
	11 M	Biomedical Research & How YOU can be Involved In It	 Dr. Joshua Hall Univ. N. Carolina- Chapel Hill
	12,13 M	Workshop Translational Medicine: From Genes to Protein Function	 Ms. Jennifer Rodriguez, Dr. Patrick Brandt Univ. N. Carolina-
	16	Improving Drug Therapy for Childhood Leukemia	 Dr. Christian Fernandez University of Pittsburgh
	18 M	New Separation Media for Bioanalytical Separations	 Dr. Luis Colon * University of Buffalo
	19	Research Opportunities at Penn State	 Dr. Ron Redwing Penn State Univ.
	25 A	New Melt Crystallization Techniques For Purification and Analysis Of Organics and Pharmaceuticals	 Dr. Andrew McGhie Univ. of Pennsylvania
	27	Workshop RISE Proposal Session	RISE Students
March	1	The Effect of Maternal Separation and Early Environmental Enrichment on the Rat Colon	 Ms. Claudia Colon * Ponce Health Sci. Univ.
	10 M	Initiation of Messenger RNA Decay In Prokaryotes	 Dr. Sidney Kushner Univ. of Georgia
	14	Workshop Experiments with Membranes, Osmosis, & Selective Transport	 Dr. Matt Holden University of Mass.- Amherst
	15 M	Opportunities in Marine Biology	 Dr. Bill Reznikoff Woods Hole Institute
	17 M	Separation & Identification of Non-targeted Components on Biological Mixtures	 Ms. Karina Tirado * University of Buffalo
April	14 M	Neuroscience & Membranes	 Dr. Gilberto Soler * Novartis Institutes
May	7	Workshop Orientation for Summer Interns	RISE Students
	14	Student Seminars Research Symposium	RISE Students

* Alumnus of UPR A – Auditorium of New Science Building M – Room 101 of Old Science Building
